Reasons for Allowance

1. Claims 2, 4-6, 8 and 11 are allowed.

It is noted that the closest prior art of record, Montgomery (UK Patent Application GB 2183880) discloses a speech translator for the deaf that includes a phoneme recognizer, but Montgomery does not teach "the processor includes a detector that responds to subscriber inputs in a form of at least one DTMF tone to activate and deactivate speech recognition" (claim 5) or "responding to a command, in a form of at least one DTMF tone, from a subscriber to activate or deactivate speech processing" (claim 11). Thus, independent claims 5 and 11 are allowable over the prior art of record because the cited prior art alone or in combination, does not fairly suggest or disclose the claimed combination of features.

Conclusion
